### PRESBYTERIAN REVIVAL.

**Large Crowds Attended the Services Yesterday.**

There was a large crowd in attendance at the morning service at the First Presbyterian church yesterday, and Dr S M. Smith, who is assisting the pastor in the revival, preached a most excellent sermon. He took his text from Nehemiah 7:3: "Every one in his watch, and every one to be over against his house." The speaker directed his discourse more especially to church members, and stated that for a church to be prosperous every member must do his duty, and that a revival would not be successful unless the members attend and cause others to be present, and thereby stimulate the minister.

Last night Dr. Smith preached a powerful sermon found in Rev. 22 17: "And the spirit and the bride say come, and let him that heareth say come, and let him that is athirst come, and whosoever will let him take the water of life freely." He made an earnest appeal to the sinners to give up the life they have been living and accept Christ as their Savior. Dr. Smith is an able and entertaining speaker and his effort last night was full of logic and reasoning, and commanded the closest attention of the large congregation. Services at 3 o'clock every afternoon and at 7.30 at night throughout this week.

**Five Smallpox Cases.**

There are five new cases of smallpox in the pest-house, three miles from Roxboro. They are the family of Joe MacLemara, the first victim. There is one other member yet in the family who has not taken the disease. The entire family, including MacLemara, have been isolated in the same house. That is all that is likely to develop, as the persons in the houses of detention are being released, and not one has shown any symptoms of the disease.

**Federal Court at Asheville.**

Marshal J. M. Millikan and Deputy Marshals J. M. Baily and J. T Millikan left this morning for Asheville to attend federal court, which opens there today, Judge Ewart presiding. Several important cases will be disposed of at this term, among them being the one against Lawrence Pulliam, the Asheville bank defaulter.

## CAPE DUTCH DISAFFECTED

**And are Verging Upon an Outbreak**

**GENERAL SITUATION IS NORMAL.**

**Bosutos Want to Attack Orange Free State—30,000 of them Are Armed and Ready.**

By Cable to the Telegram

Cape Town, Nov. 6—Prince Christine and a number of other officers have left for Durban enroute to Ladysmith to replace the British officers killed and wounded in the recent fighting.

BULLER'S CORPS DUE.

Cape Town, Nov. 6—Twenty thousand troops from England, Buller's army corps, are due to arrive here. The press censor, under instructions from Buller, has forbidden correspondents to send any details of their arrival or their movements after landing.

EXTREME DISAFFECTION.

London, Nov. 6.—Dispatches from Cape Colony poin's indicate extreme disaffection among Cape Dutch, who exult at Boer successes in Natal and are verging upon an outbreak.

There are no new particulars of the engagement at Bester's Hill. The war office is inclined to minimize the results of the affair. Attention is momentarily transferred to the northern frontier, where the Boers are advancing and the British detachments retreating.

FALSE CONTINENTAL STORIES.

London, Nov. 6—A weight was lifted from the public mind today by the publication of a brief official dispatch which proves the continental stories of the disaster at Ladysmith to be false. The dispatch had an excellent effect upon the country. White was able to take the offensive and shell the Boer camp. It seems that Ladysmith was not as closely beseiged as was at first supposed.

NOT CONFIRMED.

Cape Town, Nov. 3 (delayed in transmission)—A dispatch from Aliwai, in the north, says there is no confirmation of the report that the Boers have gone up the river towards Herschal for the purpose of crossing over into Cape Colony.

EVACUATING STORMBURG.

East London, Nov. 6 (delayed in transmission).—British troops are evacuating Stormburg Junction today. The naval brigade and the second battalion of Berkshires went out upon a train. A mounted company of Berkshires are marching southward. Their destination is unknown. There are no signs of the enemy.

BASUTOS WANT TO FIGHT.

Cape Town, Nov. 6—Thirty thousand armed Basutos are gathered throughout Basutoland indulging in war dances. The head chief, Lerotthodi, has informed the British agent at Maseru that his men are uncontrollable and demand to be allowed to attack the Orange Free State.

SITUATION NORMAL.

London, Nov. 6—A dispatch to the Times from Deaar says a dispatch-rider from Kimberly states that the situation there is normal. The shops keep open until 5:30 in the afternoon. Public houses close at 9:00 p m, after which nobody is allowed out until 6 a. m. The hotel is full and the mines are working. Apparently no preparations for war had been made until October 9th, when the Debeers company produced from its mines a complete armament of guns and ammunition, not only for Kimberly, but also for Tonnys and Vryburg.

SCHRIENER'S CIRCULAR.

Cape Town, Nov. 6—Premier Schriener has sent a circular to all Cape Colony magistrates explaining that martial law is a necessity in some districts, but the government doesn't compel the burghers to participate in these "deplorable hostilities." All are warned against the statements that the constitutional goverment is lost or detrimentally affected. The districts in which martial law is proclaimed lie around Deaar Junction.

### PHILIPPINE FIGHTING.

**Magalong Captured Yesterday—A Strong Town.**

By Cable to The Telegram

Manila, Nov. 6.—Magalong was taken yesterday by two columns of McArthur's division. It is a strong town midway between Aryetes and Arayat. The movement was part of the American plan to occupy all the country southeast of Tarlac, and as the troops close in to the capital to cut the line of the enemy's retreat in that direction The insurgents are estimated at one thousand. Wheeler's brigade is formed at Angeles, in order to be prepared for the general engagement.

### POISONED HIS SWEETHEART.

**Young Arthur Henry and His Chum are Prisoners.**

By Wire to The Telegram.

Lafayette, La, Nov. 6.—Charged with giving his sweetheart poison, Arthur Henry, the 21-year-old son of ex-Speaker of the Assembly Henry, is a prisoner today. His chum, Sidney Deborger, has been locked up as an accessory to the crime. Young Henry was engaged to marry the girl and deceived her. When she complained of being ill he gave her a capsule containing poison. She died a few minutes later.

### THE ELECTIONS TOMORROW.

**Both Sides Claim Everything in Every State.**

By Wire to The Telegram.

Cincinnati, O., Nov. 6—McLean claims the state but the Jones rate will affect McLean's chances. Republicans claim that Nash will carry the state by 50,000.

REPUBLICANS CLAIM SOUTH DAKOTA.

Pierre, S. D., Nov. 6—Republicans claim the state by 5,000 majority. The fusionists say they will carry the state.

MARYLAND DOUBTFUL.

Baltimore, Md., Nov. 6.—The state is in doubt, but the democrats seem to have a chance of victory.

BOTH PARTIES CLAIM KENTUCKY.

Louisville, Nov. 6—Democrats and republicans both claim the state. The belief is prevalent that the republicans will win on an honest count.

CLOSE IN NEBRASKA.

Lincoln, Nov. 6—Nebraska will be very close. Both sides claim the victory.

SHAW WILL WIN.

Des Moines, Ia, Nov. 6—Shaw will win

### TRANSVAAL REFUGEES.

**Arrive at New York—Describe a Reign of Terror.**

By Wire To The Telegram.

New York, Nov. 6—One hundred and fifty refugees from the Transvaal arrived on the steamer St. Paul yesterday. One of the number describes a reign of terror among the foreigners which followed the first determination of the Boers to go to war. The British are fearful that all their property will be confiscated

**The Pope's Iron Hand.**

By Cable to the Telegram.

Rome, Nov. 6—The Austrian emperor has asked the pope to intervere and prevent the marriage of Princess Stephanie to Count Lanyai. The pope has accordingly instructed the papal nuncio at Brussels to see that the wedding does not take place.

### THE SOUTHERN'S GROWTH.

**Due Partly to the Growth of Southern Industries.**

The Southern Railway began operations on July 1, 1894, with 2,012 miles of road, including the properties of the Richmond & Danville and certain of its leased and controlled lines After September 1, 1894, it operated 4,392 miles. Five years later, on July 1, 1899, the mileage operated was 5,959 miles, to which 283 miles have since been added by the lease of the Atlantic & Danville, and 31 miles will be added presently by the completion of new construction in South Carolina. The growth of five years in business has been commensurate with that in extent of road. The Southern's gross earnings in the first years of its history amounted to $17,114,000, and in the fifth year to $25,353,000; its passenger mileage in the first year to 178,015,925 and in the fifth to 311,020,836; its revenue freight mileage in the first year to 1,093,932,884, and in the fifth year to 1,771,925,333; while in 1894-95 the surplus income available for dividends was only $895,000, as compared with $2,094,000 in 1898-99. These important gains are due in part to territorial expansion, but in part also to the growth of the industries of the south and to prudent management.

### BEING HEARD TODAY

**Before Squire Pritchett and a Jury at the Court House.**

The suit of J. Henry Phipps vs. the city of Greensboro, is being heard at the court house to-day before 'Squire Pritchett and a jury of six.

The trial began at 10 o'clock this morning and a number of witnesses have been examined.

At 3 o'clock Dr. Ldbetter was on the stand.

The plaintiff is represented by G Sam Bradshaw and the city by A. M. Scales and Z V. Taylor.

Mr. Phipps sues the city for $46 41 for groceries furnished Fentress, the man who had small-pox last March.

The case will probably not be given to the jury before late this evening, as the argument of the attorneys has just begun.

**Rewards Offered.**

The attorney-general has authorized Marshal Millikan to offer a reward of $100 for the capture of W. R. Burnett, who shot Deputy Marshal R. T Harris last year in Haywood county, and who was tried and convicted at the May term of federal court at Asheville. A few days after the trial he escaped from Asheville jail.

Marshal Millikan has also been authorized to offer a $200 reward for W. H. Honeycutt, who shot Deputy Marshal Greer in Mitchell county, a few weeks ago, and after Greer's death killed M P Phillips, the only witness to the shooting of Greer.

**To be Argued This Week.**

A petition by the creditors has been filed with Clerk S. L. Trogdon, of the federal court, in the matter of E. C. Marshall, an involuntary bankrupt of White Roads, Forsyth county. The matter of a temporary restraining order will be argued this week before Judge H. G. Ewart at Asheville.

## RETURNS TO WASHINGTON.

**Senator Pritchard has been Campaigning in Maryland.**

**HE IS NOT SO HOPEFUL NOW**

**As he Was About the Defeat of the Constitutional Amendment in North Carolina.**

Special to the Telegram.

Washington, Nov. 6—United States Marshal S. D. Melton, of Charleston, S C, is in the city on a business trip, and is stopping at the Ebbitt House. Marshal Melton was seen at the hotel the other day, and in the course of a general conversation he stated that he is opposed to the present dispensary system in South Carolina, and he hopes to see the system repealed by the legislature. The dispensary system, he says, has never been of any real benefit to the people of the state, and to its doors he lays the blame for many scandals Out of the system, he says, there have grown scandals, and the officials who are charged with its execution have been charged with gross corruption in the daily press of South Carolina.

Marshal Melton says that the prohibitionists of the state and the best thinking men of South Carolina, are opposed to the present dispensary law upon principle, believing that it is not a wise policy for a state to engage, as he terms it, in the "whiskey business."

The marshal believes that the people of the state in the near future will demand a return to the high license system, or to some other "rational" system, as he expresses it In order to accomplish any reform in the matter of liquor selling, he says that an amendment to the state constitution would have to be proposed He thinks it doubtful, if the people of the state would consent to go back to the old system of "saloons," as it exists in most of the states, as the constitution of the state expressly forbids the selling of liquor by the drink. He is of the opinion that the dispensaries will eventually fall into the hands of private individuals.

Senator Pritchard, of North Carolina, has returned to Washington from a week's campaigning in the state of Maryland. The senator says that from his limited knowledge of the situation in the state, he believes that Governor Lowndes will be re-elected, as he has given the state one of the best administrations the state has enjoyed for the past twenty years.

In speaking of the situation in North Carolina, the senator is apparently not so hopeful as he was about the defeat of the proposed constitutional amendment. He says that however the state goes on state issues next August, it is his belief that President McKinley will receive the electoral vote of North Carolina.

The situation in Maryland two days before the election is puzzling to both parties. There is no disputing the fact that both parties have made a strong canvass, and are hopeful. The campaign has been none of the cleanest of any state in the Union, and the contest has been fought entirely upon state issues. Both Governor Lowndes and Hon. John Walter Smith, the democratic nominee, are able men, and are free from any suspicion of political corruption. Governor Lowndes has the point in his favor that the state is in a prosperous condition, and the governor has made an able executive, and has given such satisfaction that even the democratic platform criticised him in a very mild manner. To offset this, Maryland is naturally a democratic state. The republicans are somewhat divided between the adherents of the governor and Senator Wellington. The democratic candidate is equal in every respect to Governor Lowndes, and has an excellent record as a clean public servant. However Maryland goes this year the result will be a victory for good government.

Senator Morgan, is in the city, and will remain until the reassembling of congress next month. He is much impressed with the attitude taken by Senator McLaurin, of South Carolina, upon the Philippine question. The Alabama senator has always been an ardent expansionist. While in Washington the senator has refused to discuss the senatorial situation in Alabama, except to say that he is satisfied with his prospects of being returned.

On election day all voters residing in Washington, who vote at Colonial Beach, Virginia, will be given free transportation in order that they may cast their votes in the town election at that place. The party will leave here early Tuesday morning, and return at night.

George F. Luckry has been commissioned postmaster at Mount Gilead, Va.

John W. Thompson, the popular state official of North Carolina, is at the Metropolitan Hotel, having arrived here Sunday morning from Raleigh. Mr. Thompson will be in the city for only a few days, being here on business connected with the state.

N. B. Clark, of Richmond, Va., A. J. Ruff, of North Carolina and D. O. Donohue and wife, of Charlotte, are in the city. The two former gentlemen are at the Metropolitan, and the latter gentleman and wife are at the St James.

### PROTRACTING SCHOOL FUND.

**Supt. Mebane Notifies County Superintendents to Act if Necessary.**

The superintendent of public instruction, Prof. C. H. Mebane, is looking zealously after the school fund derived from magistrates' fines, says the Raleigh Morning Post. The following letter on this subject was sent to the various county superintendents Saturday by Superintendent Mebane:

"I have recently received a letter from a large county stating that not a single fine had been reported to the clerk by the magistrates of this county. The county superintendent writes that several magistrates were known to have collected fines and yet not one of them has been reported as the law requires.

"I wish for you to call on the clerk of your county for his report of fines, as this money belongs to the school fund of the county.

"I have reason to believe that magistrates have not done their duty in several counties in regard to fines. If, after you receive the report of fines from the clerk, you have reason to think there has been negligence on the part of any of your magistrates, then you should go and examine the record books of any or all of the magistrates Their record books are public property, and they have no right to refuse to let you see them.

"If the returns have not been made in your county, I advise you to report the matter to the solicitor of your judicial district. You should not only inform him, but see to it that he takes action in the matter

"It is your duty, as you are aware, to protect the school fund in every way possible. It may not be a popular thing to be looking into the records, but I am sure you will be ready to stand up for the children's interest in your county, whether it is a popular thing to do or not."

### THE WILD WEST SHOW.

**Met Tough Luck in This City and two of Them are in Jail.**

It seems that the wild west show people had a hard time in this city. They gave a performance Saturday afternoon and the receipts amounted to only about $7.50, and when Deputy Sheriff Weatherly attempted to collect the state and county taxes, which were $10 for each performance, he discovered that the manager was out of cash. Being a good judge of horse flesh, he levied on their best horse The show manager, however, raised the $10 and recovered his horse. While he was engaged in this, two of his subordinates got in a scrap and were carried before 'Squire Eckel, who fined them $5 each. They went to jail, but the squire issued an order this morning to release the men upon payment of costs and jail fees, provided they leave town at once. The city taxes were collected without very much trouble.

Three or four members of the show left town yesterday, but the others are still here and it is said they are out of money. The two men are still in jail. The police say that one of them has some money, but refuses to pay the costs.

**Death of Ex-Judge Shields.**

A message was received in this city late Saturday night announcing the death, at 7 o'clock in the evening, of Ex-Judge James T. Shields, aged 74 years, which occurred at his home at Bean's Station, Tenn. Judge Shields was the father of Mr. M. L Shields, of the Simpson-Shields Shoe Co., of this city. Mr. Shields left Sunday morning for Bean's Station to attend the funeral. Deceased was for several years an associate justice of the supreme court of Tennessee and resigned some time ago owing to ill health. He was a learned and able jurist and one of the most prominent men in the state. He leaves six sons to mourn his demise.

**Back on the Road.**

H. G. Griffin, who recently returned from Cuba, has obtained a position with the Southern as baggage master between Greensboro and Norfolk. Mr. Griffin, as is well known, has had a good deal of experience in railroad life. He is no stranger to the Southern Railway, having been with that road sometime prior to entering the army. He has many friends in this city and all along the line from here to Norfolk who wish for him much success. He is quite familiar with the run he now has, having been baggage master on Nos. 11 and 12 before.

### THE RACE TO MANILA.

**Five War Vessels Speeding to the Philippines.**

Washington, Nov. 4—Naval men are deeply interested in the race now going on among five warships bound for Manila. They are the Newark, New Orleans, Nashville, Brooklyn and Marietta. Captain McCalla is being heavily backed to arrive first. Of course, it would be hardly admitted that there is a race going on. Nevertheless, when ships are ordered to a point where there is going to be trouble much credit is given to the commander who gets there first. The Newark left San Francisco October 18th, and therefore has the shortest route. The Brooklyn sailed from Hampton Roads October 16th, the New Orleans from New York October 16th, the Newark from New York October 21st, the Nashville from San Juan October 14th and the Marietta from Norfolk October 17th

MONDAY, NOV. 6, 1899.

To the recent council of war at Statesville, Mr. Thomas S ttle's epistle to Linney has all the terrifying elements of a Lyddite shell.

Elections in a number of states occur tomorrow. There is no great degree of interest manifested in any of the states except Kentucky and Ohio. In these the fight wages with extreme bitterness. Mark Hanna's millions will, it is feared by many, win the race for the republicans in Ohio, while in Kentucky the democrats claim that Goebel will carry the state without a doubt. Many people have an eye on Nebraska to observe what sort of figure Mr. Bryan's influence in his own state will cut.

We have received an exceedingly nice little book showing some specimens of the architectural work of Frank P. Milburn, of Charlotte. The printing and binding is from the office of the Queen City Printing Company. The illustrations are half-tone, and are very beautiful, showing among others a picture of the Southern Loan and Trust Co 's fine office building of this city, Forsyth county's fine court house, and cuts of buildings throughout this and other states, plans for the building of which were submitted by Mr. Milburn.

The shaft at Winchester, Va., in honor of the North Carolina dead buried there, we are pleased to state, will soon be placed. The sum for this monument was raised by the noble and patriotic women of North Carolina, assisted by Charles Broadway Rouss, of New York, the blind millionaire philanthropist and friend of the south. There are many of Carolina's sons sleeping over there in the quiet, shady cemetery at Winchester, waiting for the great Reveille. The Telegram is pleased that this monument to them is soon to be erected.

In the Georgia house of representatives last Saturday the committee on the constitutional amendment recommended the passage of Representative Hardwick's bill, which is intended to have an effect similar to the amendment which North Carolina will adopt next August.

The unlettered and vicious voter must go. The ballot must not be entrusted into the hands of men who have no conception of its sacred privleges and who are ready to barter it to the highest bidder.

An intelligent ballot is what North Carolina and Georgia are laboring after and they will secure it.

It is reported that when the mill number five of the Odell Cotton Manufacturing Company of Concord was ready to start last week, it was dedicated to God with appropriate religious services, conducted by Rev J. D. Arnold, after which Capt. J. M. Odell, president of the company "stepped forward and turned the throttle of the wheel when without creak or jar the ponderous engine moved with grace and apparent consciousness of its immediate power."

This custom of dedicating laboring industries, as well as educational and religious institutions, to the Almighty, while quite uncommon, is a most beautiful one and should, we think, be practiced much more largely.

The Raleigh News and Observer asks:

Why should not our great industrial plants commence their work with religious exercises? Their mission is to help men to help themselves—the best sort of charity or help—and to add to the blessing and comforts of mankind. They are dependent for success upon the hand that created the universe and sustains all His creatures, and it seems fitting that in this material age men should have such object lessons of dependence upon Him who is the preserver as well as its men and women. The first cotton mill in North Carolina dedicated was at Randleman when the late Dr. B. Craven preached the sermon and the late John H. Ferree turned on the power that made the wheels revolve.

## THE LUCK OF A HOUSE

**A SUPERSTITION WHICH SEEMS TO BE BUILT ON FACT.**

**Few Persons Who Erect Costly Mansions For Their Own Use Ever Live to Occupy Them—If Not Death Then Disaster Bars the Doors.**

An instance has recently occurred of a well known man refusing for superstitious reasons to live in a beautiful house he had built until some one else, a perfect stranger, had occupied it for some little time.

If ever there has been a superstition that appears justified by solid fact and precedent, it is that which prevails about the building of a house. Few who erect costly mansions for their own use ever live to occupy them. An ill fate seems to bar the doors of these abodes upon which has been lavished so much thought and money and hope. Sometimes it is death and sometimes it is ruin that overtakes the owner.

So widespread and so powerful is this strange superstition that one finds even an intellectual man like Lord Salisbury insisting on leasing to strangers for several months the beautiful home which he has had erected for himself at Beaulieu, on the Riviera, before he will consent to occupy it himself or to permit any member of his family to cross its threshold.

Lord Salisbury, however, has only to look round him in London to find ample grounds for the adoption of such extraordinary and at first sight unnecessary precautions. The completion of Lord Revelstoke's palace in Charles street coincided with the bankruptcy of the great firm of Baring Bros., of which he was the principal, and it has remained ever since an exquisite monument to the futility of human hopes and ambition.

Mr. Sanford had hardly finished rebuilding the exterior of his magnificent mansion in Carlton House terrace when the collapse of Argentine securities occurred, involving him in ruin and compelling him to dispose of it to Mrs. Mackay, of "Bonanza" fame.

The Marquis de Santurce, having purchased the neighboring house from Lady Granville, spent a fortune upon the reconstruction and adornment of the interior. But before the work was completed he in turn was overtaken by the terrible disaster which befell the well known Anglo-Spanish banking house of Murrieta, of which he was the chief director, and he had no alternative but to sell the house to Mr. W. W Astor.

The downfall of Hudson, the railway king, occurred at the same time as the completion of the great house he was having built for himself at the Albert gate entrance to Hyde park, while in the same manner Baron Albert Grant witnessed the piecemeal sale of the gorgeous palace he had erected at Kensington, but was never destined to occupy.

This is why there are, comparatively, so few new mansions of a palatial character either in London or the country. Persons possessed of adequate means and in need of either a town or country residence prefer as a rule to purchase homes that have been lived in to building new ones. If they do any building at all they, in general, cause it to take the form of additions to or alterations of edifices no longer new.

Even then the owners endeavor to safeguard themselves from the possibility of danger by letting their residences for the express purpose, as they say in France, of "wiping the dust from off the plastered walls."

Nowhere is this superstition more powerful than in Bavaria, where many of the most picturesque spots, especially in the mountainous districts, are adorned with fairylike palaces. None of them has been entirely completed, for insanity and violent death overtook the brilliant and accomplished King Ludwig, who conceived their design, but unfortunately perished before their completion.

Nor even have the builders of many of the splendid structures that adorn the French metropolis been more fortunate. Thus M. Jules Grevy had scarcely completed the construction of his lordly mansion in the Avenue d'Iena when the scandalous behavior of his son-in-law, Daniel Wilson, overwhelmed him with disgrace and compelled him to resign the presidency of the republic amid a perfect hurricane of public obloquy.

The Empress Eugenie's only sister, the late Duchess of Alba, had not occupied the lovely palace erected for her in the Champs Elysees more than a few months before she was seized with a sudden illness and died there in a manner so mysterious as to give rise to rumors of foul play. The building was subsequently pulled down.

Another equally unlucky house is that now owned by the widow of the late Baron Hirsch. Situated at the corner of the Rue de l'Elysee and of the Avenue Gabriel, it was erected by the Duc de Mouchy. He had not occupied the house more than a few weeks before it was the scene of a daring burglary that covered its noble owner with ridicule. Two months after, his daughter died there so suddenly and under such strange circumstances that the duchess would not consent to remain longer in such an ill omened house.—London Mail.

**Birds That Play.**

Some birds, like all children, like to play, and Australia and New Guinea produce the "bower bird," which builds regular playhouses. These houses are not a part of their nests, but are constructed usually in the shape of covered archways of little boughs two or three feet long, 18 inches high and about as wide. They use these houses simply for their games, as if they were clubhouses. Generally these playhouses are decorated with bright colored shells and feathers, just as children decorate their playhouses.

**No Cure—No Pay.**

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

When the floorwalker becomes a father he has to work overtime.

Dr. H. H. Haden, Summit, Ala., says: "I think Kodol Dyspepsia Cure is a splendid medicine. I prescribe it, and my confidence in it grows with continued use." It digests what you eat and quickly cures dyspepsia and indigestion. Howard Gardner.

A football player can't kick if he is put out of the game.

Geo. Noland, Rockland, O., says: "My wife had piles forty years. De Witt's Witch Hazel Salve cured her. It is the best salve in America." It heals everything and cures all skin diseases. Howard Gardner.

**The Mystery of the Razor.**

It is a matter of common experience that a razor left for awhile unused becomes blunt. A writer in Chambers' Journal says that rust caused by the moisture in the atmosphere is quite enough to account for this. Shearers, for instance, who have to use particularly sharp instruments, never set their shears till just before using. What is not so generally known is that a razor which will not cut will become sharper sometimes by being left aside for some time. The only explanation of this is that the electrical properties of the metal in the edge become changed.

A "wire edge" is commonly put on a tool by amateurs. The steel turns and folds back on itself. It is owing to the edge being made too long and thin, or the metal being too soft. The only cure for a wire edge is to break off the bent portion and grind and set again.

"A knife that cuts butter when it is hot" (and under no other circumstances) we sometimes meet with. We have been going into the reasons of things, and the reason of this is easily explained. Heat expands metal, and in proportion to the amount of metal which is heated. There is more metal in the breadth of a blade than in its thickness, and the former, therefore, is expanded immensely more than the latter. In other words, the wedgelike shape is lengthened, and the tool becomes "sharp."

**The Fall of Just Pride.**

One day soon after the Mulberry Bend park was laid out in the Italian quarter of New York the man who had had more to do with the good work than any one else was passing there. As he strode happily along, thinking of the tenements that used to stand there, the fresh, clean earth attracted him and he walked out upon it. Stamping joyously about, he exclaimed:

"Fine, fine! They have planted the seed and soon the green grass will spring up under the warm sunshine. It is my proudest"—

Just then a park policeman who had slipped up behind him landed two vigorous whacks on the good man's back.

"Git off'n th' grass, ye looney old crank!" he said. "Be off wid ye, quick now, an don't let me ketch ye 'round here ag'in or I'll run ye in. See? G'wan, now."

The philanthropist had leaped wildly to the walk and his fist doubled up with anger, but a second thought, that the "sparrow cop" was right, caused his hand to relax, and the maker of the park "moved on," sore but wise as ever.—New York Times.

**Sandy and the Mare.**

A Scottish paper tells a story of Sandy Mc——, a Forfarshire farmer who had been spending an hour or two in the evening with a friend a couple of miles away. It was a moonlight night, and Sandy, after partaking freely of his friend's hospitality, was riding quietly home across the sheep pastures on his "guid auld mare," when they came to an open ditch, which his mare refused to cross.

"Hoot awa, Maggie," said the rider, "this winna dae. Ye maun jist gang ower."

He turned back about a hundred yards, wheeled round and gave the mare a touch of his whip. On she went at a brisk canter, but as they reached the edge of the ditch she stopped dead and shot Sandy clean over to the other side.

Gathering himself up, Sandy looked his mare straight in the face and said:

"Vera weel pitched indeed, ma lass. Bit hoo are ye goin to get ower yersel', eh?"

**The Lady of the House.**

"The lady of the house," once esteemed a highly polite and conciliatory form of address, is now, said a city dweller, "ancient and obsolete with those who pursue business by modern methods. In advance practice the custom is now to address the lady of the house by name, a method vastly more impressive and one susceptible of varied application. Thus an establishment with which we already have relations sends out a new circular, and this is left at the door by a man who says not 'for the lady of the house,' but 'the So-and-so sends this to Mrs. Blank.' This beats 'the lady of the house' out of sight and marks the refinement of modern methods of doing things."—New York Sun.

**Some Sharp Sayings of Bismarck.**

Bismarck had the frankness to say that he looked upon the comedies of Dumas the younger, and indeed on most French plays of the lighter sort, as grossly corrupting to the public morals. "Panem et circenses," smiled De Morny. "Panem et saturnalia," muttered Bismarck.

"Prince Bismarck is respectfully requested," wrote the American, "to devote a few words in reference to the following question: What benefit will be derived in your grace's opinion from international expositions?"

On the margin of this the prince simply wrote in pencil, "None."—"Bismarck's Table Talk," by C. Lowe.

**Weary's Sacred Promise.**

"No, madam, I cannot split the wood to which you so indelicately refer. It would be a violation of a sacred promise I made to me aged mother."

"Nonsense! What kind of a promise?"

"We have the poker habit in our family, ma'am, and I promised mother I'd never touch a chip in any form."—Cleveland Plain Dealer.

## CLARK'S NEW START IN LIFE.

**Man Who Killed Moffett at Danville Officer in Western Town.**

The interesting statement was made here yesterday that Thomas J. Clark, one of the principals in the celebrated Clark-Moffett tragedy at Danville, and the slayer of Moffett, who afterwards served a five-year term in the penitentiary, is commonwealth's attorney of a leading town in the state of Kansas. The information comes direct from a gentleman in whose neighborhood Clark was raised, and who labored industriously to secure a pardon for the prisoner, whom he contended was justifiable in the killing.

Clark left the penitentiary less than two years ago. On regaining his freedom he went to his home in Pittsylvan a county. Afterwards he drifted out West, where he appears to have conducted himself in such a way as to win the favor of the people. His election as commonwealth's attorney in the Kansas town indicates the progress he must have made into the confidence of the people of the place after locating there.

It is not known whether Clark is going under his own or some other name. He is said to have grown a very heavy, long black moustache, which would considerably alter his appearance.

During his confinement at the penitentiary, Clark always contended that he was justifiable in killing Moffett. Whether that were true or otherwise, is another question.

Rev. John R. Moffett was a Baptist minister in the town of Neapolis (now a part of Danville) and Clark was a Danville lawyer. A temperance crusade was inaugurated, and Moffett's paper became the temperance organ. There were bitter exchanges between the men, Clark replying through the columns of the Danville Register. One night Clark shot Moffett on the main street of the town. Clark contended that he acted in self-defense. Moffett's dying declaration was that Clark waylaid him and shot him without warning. The tragedy created a tremendous sensation throughout the state. Moffett's congregation erected a church and named it in honor of their late pastor, whom they regarded as a martyr to the cause of temperance.—Richmond Times.

**A Life and Death Fight.**

Mr. W. A. Hines, of Manchester, Iowa, writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50 cents and $1.00. Trial bottles free at C. E. Holton's drug store.

## CLOSE IN NEBRASKA.

**Both Sides Claim that the Election Will Go Their Way.**

Lincoln, Neb., Nov. 4.—With tonight's meetings the most bitterly fought campaign in years in Nebraska closes. Bryan and Algeld addressed two large audiences in this city, and a hundred other orators talked from as many places. The fusionists have been making the fight of their lives. Chairman Tuft, of the republican state committee, said tonight that he claims the state by from 5,000 to 10,000. The democratic chairman claims the state by from 10,000 to 12,000. Democratic leaders assert that stories of wholesale defections from the fusion alliance are untrue. The contest is going to be very close, but the result is not likely to be known before Wednesday.

## Monday, November 13, 1899,

from 9 till 11 a. m., also a separate night school from 7:00 till 9:00 for those who cannot attend in day time. No extra tuition for combining both periods.

Tuition in both writing and book-keeping combined, full course, $10.00; writing alone, strictly slant, $3.00. Payable at the expiration of the term.

Success is guaranteed to all who attend regularly and apply themselves, or no charge will be made for tuition.

Term will continue until completed, which requires from six to eight weeks.

If you ever expect to learn book-keeping or to write a good hand, now is your time.

No tuition is paid till the term closes, and the term does not close till all have finished the book-keeping course, and each student is his own judge as to when he knows it.

This fact should be taken as sufficient guarantee of safety and success. Let the pupils attend regularly and we will be responsible for the rest. NO LESSONS TO STUDY AT HOME.

Stationery for full book-keeping course, including writing material, etc., not over 80 cents. Writing material, etc., furnished at the hall.

Hall will be kept warm and comfortable.

**Why You Should Attend This School:**

Because for $10.00 you get the same identical course in book-keeping and penmanship that you would get at any commercial college at from $150 to $250. Because you complete the course before you pay tuition. Because every subject is taught from the blackboard without the use of a text book. Because every other branch except book-keeping and writing, is excluded, making it possible to complete the course in from six to eight weeks.

Because we, the undersigned pupils, have just finished Prof. Ely's course in book-keeping and writing at Nicholson's Hall, Union, S. C., and freely testify to the fact that truly he offers a chance of a lifetime to learn these important branches of business education:

## DRUGS WOULDN'T KILL HIM

**After a Fair Trial, He Blew Out His Brains.**

Wilmington, Del., Nov. 3—Finding laudanum too slow in causing death, John W. Jackson shot himself in the head with a pistol, in his room at the boarding house of Mrs John Floyd, No. 608 King street.

Jackson was found lying dead on the floor of his room in a pool of blood. His left hand tightly clutched the pistol.

In the room was found a note written by Jackson, as follows:

"It beats the devil. I have swallowed three ounces of laudanum, one from Simm's, one from Watson's and one from Harvey's, and here I am able to write. Will nothing kill me? Am I impervious, invulnerable? Well, I have a cure for all the pangs of doubt—the pistol. If I am conscious half an hour from now I will shoot. Surely a bullet would end the trouble."

The foregoing was written with pen and ink, and then is added the following, scrawled with a pencil:

"The half-hour has passed, and I am not even sleepy. Am I doomed to fail in this also? The pistol, the pistol! but it is so barbarous! I have taken another ounce of laudanum, Bringhurst's. No effect. What does it mean?

"8:30—Did ever human being have such trouble as I? Now for the bullet.

"9 o'clock—Was ever mortal so tenacious of life? What ails me? The pistol! but I do not know how to use it. I must try. Life has been so hard, I thought death, at least, would be easy. But no."

Here the strange missive, telling the struggles with death of the suicide, ended. The names in the note are those of druggists.

## REV. S. A. DONAHOE

**Testifies to the Good Qualities of Chamberlain's Cough Remedy.**

On the 10th of December, 1897 Rev. S. A. Donahoe, pastor M. E. Church, South, Point Pleasant, W. Va., contracted a severe cold, which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by C. E. Holton, Druggist.

## PROCEEDS TO THE POOR.

**Mr. Conwell's Lecture at the Normal Tonight Week.**

The St Louis Globe Democrat says: "To most preachers, even of great ambition, it would be enough to be the acceptable pulpit orator in such an edifice and the spiritual leader, with all that implies, of a flock that could erect and maintain such a building. But being pastor of a church in the ordinary sense of the term is the least of Mr. Conwell's functions. Grace Baptist Church is, in its best development, an "institutional church." Its work is divided into three sections, in order of establishment—church, college and hospital. In order of importance the college is undeniably first."

The proceeds of Mr. Conwell's lecture go entirely to the education of the poor, and about 1600 students are being educated at the Temple College, while the Samaritan Hospital, in connection with the church, is one of the most benificent institutions in the city of Phiadelphia. There is a training school for nurses, and the students in this department go to the houses of the poor without charge. When employed by the rich, doing their training, the proceeds go into the funds of the hospital.

The moving force in this work, Mr Russell H Conwell, will lecture at the State Normal and Industrial College tonight week. Course tickets, $2 00; single admission 50 cents.

**James Reed Injured.**

Mr. James Reed struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whiskey in bathing it, but nothing gave it any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House, W. Va. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by C. E. Holton, Druggist.

**He Fooled the Surgeons.**

All doctors told Renick Hamilton, of West Jefferson, Ohio, after suffering 18 months from rectal fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest pile cure on earth, and the best salve in the world. 25 cents a box. Sold by C. E Holton, druggist.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. C. E. Holton will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel camplaint and the only one that never fails. It is pleasant, safe and seliable.

**Glorious News.**

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help: but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggist. Guaranteed.

**Many Thanks.**

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Tex. There are many thousands of mothers whose children have been saved from attacks of dysentary and cholera infantum who must also feel thankful. It is for sale by C. E. Holton, Druggist.

# Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

**S.S.S. For The Blood**

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

**A Spur to Genius.**

Is it my Pluturch that the boy holds there
Upon his knee, his soul absorbed in deeds
Of other races, lands, and times and creeds,
The soft Aegean breeze within his hair,
And tales of heroes for his daily fare?
Ah! let him burn to face the haughty Medes,
And glory in the men that Athens breeds,
Or thrill at all the odds that Romans dare!
E'en thus it was that Shakespeare learned to know
His Timon and his Serpent of old Nile,
And thus Montaigne in wisdom learned to grow,
And thus the Corsican who left his isle
To rule the world got thews that world to throw;
My boy may get him something worth his while.
—Charles Woodward Hutson, in November Century.

Literary Lake—"Burns is my ideal of a poet. He combined literature with conviviality." Thirsty Thingumbob—"Wasn't dey anoder guy wot wrote poetry named Shakes Beer, er sometin like dat? He must a been a corker."

Achilles was invulnerable in every part of the body save his heel. The myth runs that he was rendered invulnerable by being dipped in the river Styx in infancy, the heel by which he was held being the only part not submerged and therefore retaining its mortal weakness.

Everyone has some weak spot in his physical organism, and that weak spot is the invariable attacking point of disease. No man is stronger than that weakest spot in him. We see great robust looking men go down like ninepins, at a touch of disease, and wonder at it. It is simply the wound in the weak spot, the vulnerable heel of Achilles.

It is the office of Dr. Pierce's Golden Medical Discovery to build up the weak places, to strengthen the weak organs of the body. It does this on Nature's own plan of nourishment. Proper food properly assimilated makes a weak man strong. But the man is only an aggregation of parts, so that the strong man means strength of all parts, heart, lungs, liver, nerves, etc. "Golden Medical Discovery" puts into Nature's hands the material by which the stomach is strengthened, the blood purified, the nerves nourished, the lungs vitalized. It makes the weak strong and the sick well. It contains no alcohol or other intoxicant.

Mr. R. J. McKnight, of Cades, Williamsburg Co., S. C., writes: "I had been troubled with rheumatism for twelve years, so bad at times I could not leave my bed. I was badly crippled. Tried many doctors and two of them gave me up to die. None of them did me much good. The pains in my back, hips and legs (and at times in my head), would nearly kill me. My appetite was very bad. I took five bottles of the 'Golden Medical Discovery' and four vials of 'Pellets,' and to-day my health is good."

## THE HOLINESS MEETING.

**Growing in Interest—Large Crowds Day and Night.**

Mr. Editor:—The holiness meeting on corner of South Elm and Lewis streets, being conducted by Messrs. Cecil and Hypes, seems to be growing in interest. Large crowds were in attendance at the three regular services yesterday. Mr. Hypes preached to a large crowd at 11 o'clock. He spoke for 65 minutes with a great deal of power. His subject was the Baptism with the Holy Ghost. At close of the sermon several came to the alter seeking conversion and the blessing of entire sanctification.

The afternoon service was conducted by Mr. Cecil. The tent at this service was packed to overflow. With the exception of the moving of a few children, the order was perfect. The subject was the Seal of the Holy Spirit of Promise a Second Definite Work of Grace. The fact was emphasized that the seal was a mark of ownership and was placed on the children, not to make them children but because they were children. Much interest was manifest at this service and is thought by many to be one of the best services of the meeting.

At the 7:30 service Mr. Hypes preached to one of the largest crowds that had been assembled at the tent since the beginning of the meeting. Many who were in the tent could not get seats, and many stood on the outside, unable to get in. Mr. Hypes spoke from Acts 4:12. He held Jesus up a great savior, one that was equal to the emergency and could save from all sin. Many were saved and sanctified at this service.

Officer Jordan found a small 10-year-old bare-footed white boy at the depot last night, and upon inquiry found that his home was at Haw River, and that he had left home a few days ago and had visited Reidsville and other towns in this section. Mr. Jordan gave the little shaver a place to sleep last night and sent him home on the Raleigh train this morning. The policemen chipped in and paid for his railroad ticket.

## DEPARTMENT OF MUSIC.

BY J. W. TILLINGHAST.

[All communications intended for this department should be sent to J. W. Tillinghast, 415 Eugene street. All notices for publication should be handed in not later than 9 o'clock Monday.]

Musical clubs, societies, aggregations, what not—anything in the way of organized effort to do something musical and keep doing it—are not to be found in Greensboro

With the single exception of the Orchestra, there is no society here that has a musical purpose or can in any sense be called a musical society. In this age of combinations, when all the world is learning the value of organization and applying it to everything, when people everywhere are clubbing for the better accomplishment of every sort of desirable and undesirable end, and when music clubs are scattered from one end of the continent to the other and have become a power in the land, it is strange that out of Greensboro's fifteen thousand people, enough have not been forthcoming to found and foster some sort of social musical organization. Perhaps it would be hard to say just why this is; probably because other forms of social pleasure have left no opening, and yet when we consider how large a part music has in the social life of every refined community we must still think it strange that Greensboro has developed no musical clubs. There are musical people enough here but there is lacking that general sentiment of the community in favor of serious musical work. Music is to us a thing apart—something to be added to one's education after everything else is done—a thing for occasions, not a part of life. And yet the love of music is in all, a part of all. It is only for lack of development, early development, that it fails to be a potent influence. And this brings us back to the "Music in the Public Schools" question. Here it is that people must get their ideas formed about music. Then must they learn that its study has a real and serious bearing upon this higher life. If they do not get it then, only in exceptional cases will they ever get it, and they join the great majority who know nothing of music, and while they like it they put it in a class with ice cream and other non essential good things.

This is, I believe, one great if not the greatest reason, why we have no organic musical life. We have no facilities for teaching music to the people as a whole at a time and in a manner that will form their ideas on the subject and give it its position of relative importance in their scheme of thought
